About Me

I'm a second year Computer Science student at Rutgers University with over 2.5 year of coding experience in Java . I have experience with mobile android development and I'm not afraid around new or unfamiliar hardware. As a person who enjoys programming, I am hoping a summer internship will allow me to both apply my in-classroom knowledge as well as learn new and useful skills in the field.

Education

Northern Highlands Regional High School | 2009-2013

Rutgers University- New Brunswick | 2013-Present
Expected to Graduate in 2017 with a B.S. in Computer Science

Key Skills

Languages: Java, C#, XML, JavaScript

Software: Eclipse, Git, Github, IntelliJ, Android Studio, Microsoft Office, AutoCAD
Photoshop, Illustrator, Microsoft Visual Studio

Operating Systems: Windows XP, Windows 7, Windows 8, Linux, Mac OSX, Android

Other: Good verbal and written communication, strong problem solving skills, familiar with group projects and deadlines, familiar with mobile coding and projects on mobile devices, strong mobile UI/UX knowledge, and experience with mocking up projects and designs before starting them.
